

Managing OHS Risks

Risk management is the process of identifying, assessing and controlling risk. Risk can come from a range of sources including risks to health and safety. All businesses need to control their OHS risks both to be compliant with OHS laws and to ensure a safe and productive workplace. It is also important to be able to prioritise risks to ensure resources are applied to the most serious ones.

Training Outcomes:

- Implement the risk management process of:
 - ▶ Hazard identification
 - ▶ Risk assessment
 - ▶ Risk control
- Prioritise risks for action
- Create an action plan

3 Steps to getting your Managing OHS Risks action plan:

1. Contact us today 03 9805 8000 or email mail@preftrain.com and give us an overview of your Managing OHS Risks requirements.
2. We will organise a subject expert with proven experience on a similar Risk Management project to contact you with some ideas.
3. We will send you a Managing OHS Risks proposal and a quote the very next day.

Preferred Training Networks is Australia's first referred learning network comprising of OHS trainers, facilitators, coaches, instructional designers and consultants, all referred by senior management from Australia's top 500 companies. The aim of the Network is to provide risk-free quality learning solutions to keep your people safe in the workplace.
